

January 2009 Survey Results

- 1) Answers are grouped by region.
- 2) Results of general interest have been placed first – people’s interest and comments on activities, what other things people are want, etc.
- 3) Names are removed from this online version to protect privacy.
- 4) Some tallying and minor analysis was done for some questions; this is included at the end of those questions.
(Example: we asked people to rate their interest in activities using numbers 1-5, where 1 = most interested. The numbers were tallied for each activity; theoretically, the lower the sum, the more interest)
- 5) Caution: this document is LONG, as we got a lot of great input. You’ll want to skim first and only then focus on what’s interesting to you.

Thanks to everyone who filled out a survey; your opinions and comments have been so important.

See an idea you love? Email your regional rep to connect with others interested in making it a reality!

Enjoy!

1 - Very interested in attending seasonal workshops in painting by Catherine Watters, Lee McCaffree or other teachers. Ideally, I'd like workshops to be conducted partially outdoors to observe and sketch/mix color and then finished in the classroom. I prefer when all students paint same subject because I find that I learn not only from the teacher but from other students too. How do you think NCALSBA did as a new group in 2008? What improvements would you like to see in 2009?	City you live in:	region
I have a hectic work schedule so was unable to participate last year.	alameda	e
	Berkeley	e
I think we have an identity problem because of the strong program at Filoli. I think the organization would do better as an adjunct to this center or somehow be in cooperation with it. Somehow, I don't think we have't established an identity yet as an organization. As one of Catherine Watters students, a frequent Filoli master class participant and a candidate for the certificate from England my life is pretty full with botanical art.	Danville	e
Well enough. I appreciate that we accomplished what we set out to do: establish a membership base, set up a website, identify volunteers for each region to oversee communication, hold events in 4 regions, and begin to assess what it takes to become a chapter. I would like more activities from which to choose, both formal and casual.	Oakland	e
That's nearly one activity per region. Pretty good. There are people working very hard behind the scenes. More membership participation.	Oakland	e
I was not able to attend any of the 2008 meetings due to prior engagements. I hope to do better this year with improvements on my calendar.	Oakland and West Marin	e
The activities were in locations to accommodate various areas. This reflects trying to include everyone. They were field trips so perhaps next year there could be workshops or painting opportunities. The success of the sign ups of one that was offered was an example.	Orinda	e
I think the group came together very well and generated a lot of enthusiasm in becoming a chapter. We need to move forward and make it happen!	Orinda	e
I liked the activities in 2008. I would have liked to have a group exhibition similar to the California Watercolor Society, perhaps at the Presidio Officers Club.	Piedmont	e
I think people worked hard to formulate activities and to keep in contact with each other.	San Francisco	f
more involvement from members	san francisco	f
i think we did well for such a new and spreadout group.	san francisco	f
A little more interaction between groups, such as invitations to participate in exhibits and workshops.	San Francisco	f
wasn't able to attend meetings in 2008	San Francisco	f
I was not able to attend any meetings or fieldtrips, but heard that they were informative and enjoyable.	San Francisco	f
	San Francisco	f
I think we did well; we had a good start. Our steering committee did a LOT of work behind the scenes all year (some of it premature or unnecessary or focused on the wrong things, but we are just learning as we go). I would like to see many more activities, especially social events, and lots more member involvement in 2009. I'm excited that we are going to change our structure this year to involve more members - I think any of the courses of action we discussed will lead to that!	San Francisco	f
	San Francisco	f
I thought communication improved. Mission statement is important. At his time my focus was to be with group(s) to share and observe other artists work so as to know what is happening in this art form. what the focus of organization is or will be of great interest to me.	san francisco ,ca	f
I wasn't able to attend as many activities as I would have liked to! I was really impressed at the scope of activities offered, however and hope to be able to participate more this year. Perhaps an activity a bit inland this year? Mount Diablo?!	Davis	n

Very well; I think it would be useful to hold a second large annual meeting, perhaps in the summer, to help maintain momentum and contact between participants.	Mill Valley	n
I attended one outing, to Quarryhill Botanical Garden. That was pleasant. I would like to have participated in a workshop, but the one I heard about did not fit in my schedule.	Muir Beach	n
more workshops	Santa Rosa	n
I would like more gatherings (workshops, field trips) that focus on the North Bay.	Santa Rosa	n
I thought the group did very well this year, with the field trips planned in the different regions. I would like to see more activities in my own North Bay region planned by members of the North Bay, for instance, workshops, and informal get togethers for mutual support.	Santa Rosa	n
I was amazed at how quickly it got together, how well it communicated, what excellent field trips it put together and how professionally it was all done. All this said with the greatest admiration for the skills, energy and willingness of those who got this 'off the ground'. Thank you!	Sonoma	n
As a brand new group, they did great! Organized an initial meeting, polled members and put on some successful & interesting events. I'm not sure of the logistics of all the planning, but it must be a shared endeavor by all members. If not, the "planner" bees will get burnt out.	Hillsborough	s
More events on the west side of the bay	Los Altos Hills	s
I think we got off to a flying start. I just hope we can keep up the momentum.	Palo Alto	s
Great - We did 3-4 activities UCSC, UC Berkeley, botanical place up north and painting in SF - do it again.	Redwood City	s
I thought our activities were exceptional offerings, and I would hope that in future we would entice more members to join us in whatever activities we plan. 2nd answer: More Field Trips & workshops & exhibitions....anything to engage our members!	Saratoga	s
Due to health problems, was unable to participate other than through email info. What have some other regional groups across the country done in the past year to achieve success and remain solvent? Need more research and opinions to make a decision on this question. Is there a summary of what the NCALSBA did in 2008?	Sunnyvale	s

Tally/Analysis:

apply next year (i) = 22

apply this year (ii) = 9

do both = 1

note: the background to this question did not include details on what work was done already and distinguish that from work still needed for a chapter application, so the responders were less informed than they could have been when answering this question.
