

UPDATE: THERE ARE ONLY 4 SPACES REMAINING IN THIS WORKSHOP

Cambessedesia angelana, Melastomataceae, flower and bud. Graphite (left) with added dark background, pen nib and ink (right) using hatching technique. © 2009, Rogério Lupo.

Pen Nib and Ink and Graphite Hybrid Workshop for Scientific Illustration in Botanical Art with Rogério Lupo

Friday, March 22 – Sunday, March 24, 2019; 9AM – 4PM
Woodhall, 501 Orinda Woods Dr, Orinda, CA
\$350 for NCalSBA members / \$400 NCalSBA non-members. Limit 16

Rogério Lupo is one of the finest contemporary scientific illustrators in the world, with many top awards from prestigious institutions. Born in São Paulo, Brazil, Lupo earned a bachelor's degree in biological sciences from the University of São Paulo and has studied art at Escola Classica de Arte. He was awarded the first prize in the Margaret Mee National Contest (Brazil) in 2002 and 2003, black-and-white category, and the first prize in the 2010 and 2013 Margaret Flockton Award for Excellence in Scientific Botanical Illustration (Australia).

Workshop Description: This will be a hybrid workshop: the same class will hold students using both graphite and pen nib and ink techniques. All the hints and explanations about both media take place in the same room, but individually each attendee will use one technique for their project. Participants will have the instructor's full assistance and guidance, since the workshop is limited to the same number of students as if it were a single technique workshop. **Note:** Each participant will receive both my graphite **and** pen and ink guidebooks.
