

Plant Name	Common Name	Bed Number(s)	Accession Numbers	Time of year in Bloom	Rationale
<b>California</b>					
<i>Adenostoma fasciculatum</i>	Chamise	7C, 9, 12A, 21B, 24, 28B, 29, 43, 70B, 72, 73, NURS	58.0928, 71.0673, 84.0103, 84.0891, 85.1249, 87.0007, 92.1095	May/June	chamise, one of many great components of the chaparral
<i>Amsinckia grandiflora</i>	Large-flowered Fiddleneck	Location restricted	2007.0001, 2011.0043, 2011.0522, 2011.0523, 2013.0625, 2013.0627, 2014.0274, 2014.0328,	April	federally endangered annual, focus of efforts at seed banking and reintroduction at UCBG
<i>Arctostaphylos franciscana</i>	Franciscan Manzanita	7A, 7B, 23B, 24, 922B, STOR	53.1071, 85.0072, 2009.0552	February-April	rare manzanita, formerly presumed extinct for many years
<i>Aristolochia californica</i>	Pipevine	4, 10, 16, 30, 925	60.1061, 82.1110, 82.1470, 85.0557	February/March	popular vine with u-shaped flowers, mysterious pollination syndrome, beguiling winged capsules, the sole host to the pipevine swallowtail.
<i>Calocedrus decurrens</i>	Incense Cedar	10, 30, 35, 39	77.0525, 87.1602, 91.1320,		ancient lineage in CA, great form
<i>Calochortus</i> sp.				March - June	center of diversity for the genus is in CA with ~28 endemic species
<i>Calycanthus occidentalis</i>	Spicebush	7C, 13, 14, 18B, 21B, 35, 37, 39, 71A, 75, 80, 923, 925	50.1653, 91.1380, 92.1093, 95.1137, 2001.0756	May/June	fragrant brownish maroon flowers, genus is good example of the Eastern Asian and North American disjunction and is represented in Asia, Cal and ENA.
<i>Carpenteria californica</i>	Tree-Anemone	10, 11, 25, 28A, 30, 32, 35, STOR	53.1311, 59.0803, 80.0122, 86.1795, 91.1241, 92.187	April/May	monotypic genus in the hydrangea family
<i>Ceanothus thyrsiflorus</i>	Carmel Ceanothus	4, 12B, 19, 22B, 25, 70A, 176, 901, 922A, 922B, 923, 928, NURS	61.1736, 63.1023, 80.0060, 82.1081, 83.0738, 83.0821, 83.1424, 89.1973, 2014.0240, 2015.0086	March/April	popular blue flowering shrub that people can grow at home too
<i>Clarkia</i> sp.				April/May	with 40 species, good representative of annual diversity in CA
<i>Chlorogalum pomeridianum</i>	Common Soap Plant	1B, 7A, 7C, 12B, 19, 22D, 23A, 28A, 70A, 900, 919, 922B	57.0838, 61.0104, 61.0294, 63.1086, 81.0332, 82.1623, 84.0293, 85.0271, 85.0431, 87.1035, 89.1620, 97.0068,	May-July	many ethnobotanical uses
<i>Eriogonum</i> sp.				March-September	so many so great - example of a genus that is still actively speciating
<i>Fremontodendron californicum</i>	Flannelbush	7A, 7C, 10, 11, 12B, 18A, 20, 21A, 24, 26A, 29, 70B,	81.0525, 82.1388, 83.0103, 83.1327, 89.1811, 2012.0236	March-June	Tropical relict with flamboyant blooms, belonging to the cotton family
<i>Garrya elliptica</i>	Coast Silk Tassel	1B, 4, 7A, 18B, 22B, 72, 103, 924, 925	53.1099, 63.1066, 63.1274, 64.1209, 82.0136, 99.0022, 2000.0143	January-April	the silk tassels: a small family only found in warm temperate climates, filamentous flowers, dusted in chartreuse pollen
<i>Hesperoyucca whipplei</i>	Chaparral Yucca	7A, 7B, 7C, 25, 27, 28A, 171A, 171B	62.0093, 73.0159, 82.1070, 85.0342, 87.0938, 92.0635,	March-May	vertical interest in the Serpentine exhibit, example of symbiosis
<i>Leptosyne gigantea</i>	Giant Coreopsis	6B, 9, 43, STOR	60.0129	February-July	giant coreopsis of coastal CA and Baja California, highlight of channel Islands bed
<i>Notholithocarpus densiflorus</i>	Tanbark Oak	7B, 10, 14, 30, 900, 903, 905, 917, 922A, 922B	78.0012, 83.0027, 83.0219, 83.0222, 87.1569		enigmatic oak relative, species of conservation concern
<i>Pinus sabiniana</i>	Foothill Pine	11, 32, 35, 919	81.0334, 85.1668, 87.0022, 2011.0248		airy and magnificent, the palm of pines, long drooping needles
<i>Quercus douglasii</i>	Blue Oak	11, 35	87.1598	March	endemic oak, part of savanna matrix
<i>Romneya coulteri</i>	California Tree Poppy	12A	50.064	May-October	largest flower of all the native plants in CA
<i>Schoenoplectus acutus</i>	Common tule	3A	82.0906	May-June	tall denizen of freshwater marshes, numerous ethnobotanical uses
<i>Scoliopus bigelovii</i>	Slink Pod	18B, 21B, 22A, 900, 901, 906, 911, 912, 914, 916, 919, NURS	60.0220, 61.0019, 63.1020, 76.0064, 21005.0205, 2018.0154	February-April	ephemeral species of the redwood forests, harbinger of the rainy season, pollinated by fungus gnats
<i>Sequoia and Sequoiadendron</i>	Redwood				CA's big trees, taxonomic relation to Asia's Metasequoia
<i>Stipa pulchra</i>	Purple Needle Grass	3B, 7B, 9, 11, STOR	65.1495, 81.0411, 82.1621, 2015.0191	March-June	the CA state grass, with a root system up to 20' deep, pointy purple fruit
<b>Southern Africa</b>					
<i>Afrocarpus gracilior</i>		143	28.0175		The oldest plant in the garden, afromontane representative
<i>Aloe polyphylla</i>	Spiral Aloe	138	95.1421		spiral aloe
<i>Aloe speciosa</i>		119, 128	73.0403, 96.0534	January	representative of arborescent aloes we have in the garden, probably the showiest
<i>Babiana ringens</i>	Baboon Flower	129, 130, 131	81.0498	March	interesting geophyte form with a bird perch, babiana representative
<i>Brunsvigia josephinae</i>	Josephine's Lily	131	90.1838	October	the biggest geophyte from SAF, good example of hysteraanthus amaryllidaceae
<i>Cussonia paniculata</i>	Cabbage Tree	138	87.1065		Striking, blue-gray leaves
<i>Encephalartos natalensis</i>	Natal Giant Cycad	140, 141, 251, 252, NURS	68.0769, 89.1914, 2005.0812, 2005.0928, 2005.0954, 2005.0958, 2005.0959,		rare, UCB conservation genus, nice big plant
<i>Encephalartos horridus</i>		124A, 146, 251	11 accessions		very spiky leaves; vulnerable in habitat
<i>Erica bauera</i>		134, 135, 145	2009.0196	December-May	Example of SAF Ericaceae, probably the most prevalent (and prettiest?) Erica in the garden
<i>Euphorbia polygona</i> var. <i>horrida</i>	African Milk Barrel	1005	50.1178	June	historical, big, example of columnar euphorbia

Ferraria crispa var. crispa		119, 128	2003.0422	May	example of SAF Iridaceae geophytes, strange and wonderful
Haemanthus spp.					several species of geophytes with striking blossoms. H. coccineus is red; H. albiflos, white.
Kumara plicatilis		119, 124B, 130, 146	87.1062, 2011.0473, 2006.0054, 94.0609		Iconic specimens of a plant that used to be in the genus Aloe
Protea cynaroides	King protea	135, 138, 140	2004.0756	March-May	National flower of South Africa, impressive and recognizable inflorescence
Rhodocoma arida		134, 136	96.0101		example of Restionaceae, good form
Ursinia cakilifolia		130, 146	200.0553	December - May	example of the annual asters from South Africa and SAF's spring blooming madness
<b>Asia</b>					
Angiopteris lygodifolia	Turnip Fern	225, 226, 228B, 231, 232, 240, Atrium VLSB	70.0489, 71.0045		large fern unique to Asian Pacific tropical & subtropical regions
Arisaema cf ringens		230, 231	97.0231	February-March	neato bloom on a neato genus representing a neato family
Bletilla ochracea		400C	98.0001	August-September	unusual and popular terrestrial orchid
Carex baccans		227, 228B, 229, 231, 242, 249, 450	80.071		colorful seeds, noticeable near Japanese Pool, collected by former collections manager
Cautleya spicata		235	74.1069	June-October	strong summer growth & bloom, representative of Zingiberaceae diversity in Asia
Clematis akebioides		221	91.0314	July-September	interesting, reliable bloom representing this genus
Glyptostrobos pensilis	Chinese Water Pine	170B, 245D, NURS	70.0169, 2012.0751		Chinese water pine, very endangered ancient species.
Helwingia chinensis		234, 242	2002.0209		epiphyllous blooms! how fascinating
Hydrangea spp.					Several attractive species. Important understory plant in the Asian Area.
Kirengeshoma palmata	Yellow Wax Bells	216, 225, 230, 240, 246, 247	90.0673	August	Unusual yellow-flowered hydrangea relative.
Lilium lancifolium	Tiger Lily	501	80.148	August	strong summer bloom, representative of Asian Lilium diversity
Luculia gratissima		218, 220B, 400B	54.1342	September-March	fragrant winter bloomer often noticed by visitors
Magnolia spp.					Many species which form an important group of trees in the Asian Area.
Magnolia laevifolia		221	84.0766	March	
Metasequoia glyptostroboides	Dawn Redwood	224, 226, 240, 244, 245A, 245C	49.0500, 80.0716		historical planting with UCB story, taxonomic relation to CA's famous big trees
Osbeckia crinita		221	88.1205	August-October	Beautiful pink blossoms with distinctive, yellow stamens.
Paeonia suffruticosa		240, 244, 427, 450	82.0182	March	large, showy flowers
Phyllostachys bambusoides		225	68.0963		giant timber bamboo, a good representation for this iconic taxa
Pleione formosana		237, NURS	74.0388	March-April	gorgeous terrestrial orchid
Rhododendron arboreum/Rhododendron delavayi		217, 219, 220C, 2310, 234, 235, 236, 249, 400A, 450, 500	32.0265, 32.1731, 32.1757, 32.1783, 42.0522, 42.0525, 42.0526, 59.0902, 63.0226, 52.0902, 63.0226, 74.1037, 78.0471, 84.0770, 91.0457, 97.0573, 99.0631, 2001.0062,	January-April	historical planting, garden logo, representative of diverse genus in collection
Rhododendron spp.					Many species to choose from! Some rhododendron is in bloom nearly every month of the year.
Trachycarpus martianus	Windmill Palm	170B, 236, 250B, 250C	77.0432, 93.1340		representative of diversity of this Asian palm genus
<b>South America</b>					
Alstroemeria aurea		655	95.0259	June-October	I mean, it makes up the majority of the collection, geophyte.
Araucaria araucana	Monkey Puzzle Tree	657, 658, NURS	84.0137, 2016.0015		Iconic tree, illustrates temperate SOA, Gondwana
Berberis darwinii	Darwin Barberry	603, 605, 607	40.1001, 76.0264	October-April	Barberry with intense yellow-orange blossoms. Named for Charles Darwin
Blechnum penna-marina	Alpine Hard Fern	508, 510, 512, 513, 600, 607, 653, 654, NURS	91.1228, 92.0135, 94.0558, 94.0579, 21005.0457, 2010,0509		Lovely, delicate, mat-forming fern.
Bomarea spp.					Beautiful vining relative of Alstroemeria. Colorful trusses of yellow/orange/red blossoms.
Brugmansia sanguinea	Red Angel's Trumpet	602652	46.1222, 52.0687	January-December	Reddish angels trumpet with large, pendulous flowers
Calceolaria spp.					Several species with colorful, pouch-like blossoms.
Colletia paradoxa	Anchor Plant	601, 610	49.202	September-January	Anchor plant. Triangular photosynthetic cladodes and small, fragrant white flowers.
Dendroseris marginata		652, NURS	2015.0291		Juan Fernandez Islands, Relictual cloud forest, Asteraceae diversity
Drimys winteri	Winter's Brk	601, 606, 607, 608	45.0307, 83.0334	February-March	temperate rain forest tree with attractive blossoms
Erythrina crista-galli	Cockspur Coral Tree	601	91.0211	April-December	Crazy coral pea flowers, Nitrogen fixing legume, more continental/ tropical SOA distribution
Fuchsia spp.					Several beautiful wild species that put on a great display in SOA

Gunnera chilensis		600	92.1501	April-June	Notorious giant leaves, bacterial symbiosis, unusual wind pollinated dimerous flowers
Jubaea chilensis	Chilean Wine Palm	301A, 610, 611, 612	61.0775, 93.0109		Chilean wine palm, rare and endangered, SOA palm diversity
Lapageria rosea	Chilean Bellflower	601, 602, 605, 607, 654, 655, NURS	37.1016, 52.0609, 52.0612, 52.07901, 52.0792	September-January	Chilean bellflower. It's been done before, but it's a classic in SOA
Macleania benthamiana		601	2004.0328	September-March	Neotropical blueberry (Ericaceae diversity), beautiful flowers, Páramo habitat
Nicotiana tomentosa	Tobacco Cimerron	654, 657	36.002	February-November	Historical importance (Goodspeed expedition), Solanum diversity, ethnobotanical
Passiflora mollissima	Banana Passion Fruit	651	64.0535	June-October	Liana, impressive intricate flower, edible fruit
Puya alpestris ssp. zoellneri (New name for P.berteroniana)		612	83.0352	April-May	Sapphire tower, Terrestrial bromeliad
Salvia spp.					S. confertiflora, S. sagittata, S. rubescens, etc. Ever popular genus with beautiful blossoms
<b>Crops of the World</b>					
Capparis spinosa	Caper	410, 705, 801, 805	62.0728, 94.1273	July-August	Capers of commerce - beautiful blossoms
Camellia sinensis	Tea Tree	232, 235, 245D, 406	50.0968, 82.0215, 2018.0120	October-February	tea of commerce - lovely small, white blossoms
Quercus suber	Cork Oak	804	45.0251		cork oak. striking, textured bark
Zea diploperennis		803	80.0613		teosinte - perennial corn relative
Many other crop plants to choose from.					
<b>Chinese Medicinal Herb Garden</b>					
Armeniaca (Prunus) mume		428	95.1284	January	lovely white plum blossoms. Fruit pickled and used medicinally
Chaenomeles speciosa		427	90.1126, 90.1127		Flowering quince. Deep, blood-red blossoms
Platycodon grandiflorus	Balloon Flower	430, NURS	88.0602, 96.0636		Ballon flower. Common ornamental with many medicinal and culinary uses.
Ginkgo biloba		218, 428, NURS	59.1524, 2016.0247		Unusual gymnosperm with several medicinal uses
Magnolia (Michelia in records) alba					Small, fragrant creamy blossoms on a small, evergreen tree.
<b>Herb Garden</b>					
Alchemilla vulgaris	Lady's Mantle	404, 405	89.0802		lady's mantle - sprays of yellow blossoms and attractive leaves
Rosmarinus officinalis	Rosemary	403, 404, 407, 410, 411, 412, 413, 414, 415, 701, 704, 705, NURS	74.0365, 83.1020, 87.0773, 89.1234, 91.1282, 98.0850, 99.0184, 99.0460, 2000.0347, 2002.0560, 2016.0110	August-March	Rosemary
Lavandula spp.	Lavender			January-November	Several species of lavender to choose from
Salvia officinalis	Common Sage	410, 415, 700A, NURS	2007.0083, 2008.0781, 2014.0366, 2016.0461,	April-June	culinary sage. Several varieties to choose from, including the variegated 'Tricolor'
Origanum spp.	Oregano	114, 403, 410, 411, 415, 700A, 700B, 701, 704, 706, 709, NURS	73.0654, 74.0170, 79.0317, 79.0524, 79.0531, 79.0533, 79.0545, 80.0822, 82.0610, 85.0576, 87.0341, 87.0680, 87.0768, 89.1228, 89.1235, 89.1245, 90.1861, 90.1863, 91.1016, 92.1181, 93.1043, 95.0042, 98.0848, 99.0057, 99.0209, 99.0254, 2006.0441,	June-September	Oregano, marjoram, dittany of crete, etc.
<b>Tropical House</b>					
Amorphophallus titanum	Titan Arum	1002, 1003O	2008.0398, 2008.0400, 2012.0451, 2012.9452, 2012.0453, 2012.10454,		
Orchid species - many to choose from coming into blossom regularly					
<b>Arid House</b>					
Welwitschia mirabilis		1005, NURS	54.1488, 89.1311, 96.0955,		Highly unusual gymnosperm from Namibia.
Adenium spp.					Beautiful blossoms on an unusual caudiciform plant
Ceropegia ampliata		1005	54.1178, 21002.0488	August-November	Unusual white and green blossoms on a vining desert plant.
Cactaceae					Hundreds of cacti to choose from. Many bloom in a given year, but blossoms can be fleeting.
Lithops spp.					Living stones in this genus and several others have beautiful, textured leaves, and blossoms as well.

Dioscorea elephantipes	Elephant's-foot	1005	51.0908, 96.0029	October	Striking, faceted caudex
<b>Orchid, Fern, Carnivorous Plant House</b>					
Angraecum sesquipedale	Darwin's Orchid	1002	2015.0054		The famous and beautiful Darwin's orchid
Darlingtonia californica	California Pitcher Plant	1007			Of limited distribution in California and Oregon.
Elaphoglossum crinitum	Elephant's-Ear Fern	1002, 1007	59.0316, 90.2430		Bold, undivided fronds on this fern
Heliophora spp.		1002, 1007	2010.0376, 2010.0377, 2013.0572, 2013.0573,		Unusual and lovely pitcher plant from South America. As with orchids there's a rotation of the display
Nepenthes spp.	Tropical Pitcher Plant	1002, 1007			Striking tropical pitcher plants. Many to choose from.
<b>Orchidaceae</b>					
Phragmipedium kovachii		1001	2015.0119		Slipper orchid with a controversial and complex history
Sarracenia spp.		NURS	2001.0052, 2015.0165		
<b>Palm and Cycad Garden</b>					
Butia capitata	Jelly Palm	250A, 300	45.0230, 75.0592	August-September	Jelly palm. numerous edible fruit
Jubaea chilensis	Chilean Wine Palm	301A, 610, 611, 612	61.0775, 93.0109		Chilean wine palm
<b>Palms and cycads</b>					
					Many to choose from
<b>Mediterranean</b>					
Acanthus spp.	Bear's Breech	405, 700A, 705, 706	72.0393, 78.0224	June-July	Referred to in classical Greek architecture. A. mollis, A. spinosus
Aeonium spp.					Canary Island succulent. Beautiful rosettes and spikes of blossoms
Asphodelus spp.	Asphodel				Distinctive blossoms. A. albus, A. ramosus, A. aestivus
Clematis flammula		710	2004.0221	July-September	Delicate and fragrant white blossoms. Looks similar to native Californian Species.
Colchicum autumnale	Autumn Crocus	404, 700A, 702, NURS	74.0576, 85.1006, 86.0139, 2016.0029, 2016.0158	September	Fall blooming "crocus" that has been used in genetic research
Cyclamen africanum	Cyclamen	702	80.0657, 93.0814		Most robust species of several we grow. Puts on a good display in winter
Echium spp.					Several species particularly known from the Canary Islands. Lovely blue or white blossoms
Helleborus spp.	Hellebore			December-May	several species with distinctive winter blooms.
Hermodactylus tuberosus	Snake's Head Iris	700B, 701, 702	85.1648, 89.1046	February-June	Unusual iris relative with unusual blossoms
Iris unguicularis	Winter Iris	705, 706	89.0967	November-May	Beautiful winter flowering blue iris
Melanoselinum decipiens	Black Parsley	708	2004.122	February-April	Attractive umbel
Narcissus spp.	Narcissus				Mutiple species of this Mediterranean basin genus of bulbs.
Nigella damascena	Love-In-A-Mist	410, 704, 705, 706, NURS	87.0734, 87.0950, 2004.1125, 2015.0051	May-November	Annual with delicate blossoms. Seeds used as flavoring in cooking.
Origanum rotundifolium	Marjoram	700B	87.0341	July-October	The distinctive oregano relative that goes by the name dittany of Crete
Paeonia broteri	Peony	702, 703	88.0337, 92.1535	April	Lovely wild peony
Phlomis spp.	Jerusalem Sage			February-September	Several species with attractive blossoms. Mint relatives with aromatic foliage.
Primula vulgaris	English Primrose	416, 700A	87.0303, 2006.0444		Delicate primrose with yellow blossoms.
<b>Eastern North America</b>					
Arisaema triphyllum	Jack-In-The-Pulpit	302, 304, 305, 309, 310, 311, NURS	32.2083, 96.0826, 2004.0553, 2004.0558, 2004.0593, 2008.0642, 2018.0021,		Eastern native Jack-in-the-pulpit. Many Asian relatives in the collection
Asclepias syriaca	Milkweed	303	80.0827	June-August	major eastern milkweed with attractive trusses of blossoms
Asimina triloba	Pawpaw	305	82.2026	April	Small tree with distinctive purple/black blossoms. Commonly known as paw paw.
Boltonia asteroides	False Chamomile	306	91.1324	August/September	One of many white daisy-like flowers
Chelone glabra	Turtlehead	302, 306, 310, 311	80.0202, 82.2149, 2002.0860	August/September	Distinctive swamp grower with white blossoms that look like turtle heads (to someone!)
Clematis crispa	Blue-Jasmine	303	92.0022	July	Delicate, purple bell-shaped blossoms.
Echinacea spp.	Coneflower				Early winter blooming shrub with spidery yellow blossoms. Herbal uses.
Hamamelis virginiana	Witch Hazel	302, 304, 311	49.1105, 81.0529, 90.2058	July-November	Early winter blooming shrub with spidery yellow blossoms. Herbal uses.
Helianthus spp.	Sunflower				Several attractive species of yellow daisies.
Hydrangea arborescens	Wild Hydrangea	304, 306, NURS	77.0662, 83.0478, 2018.0353	July-November	Lovely low growing hydrangea species.

Magnolia virginiana	Sweet Bay	305	78.0188	June/July	Small flowered magnolia from the Southeast USA
Monarda fistulosa	Wild Bergamot	303, 307	2004.0487, 2004.0723	July-September	Aromatic mint relative with purple blossoms. Prairie plant
Neviusia alabamensis	Alabama Snow-wreath	303, 304, 305	93.0839	February-September	Rare low-growing shrub with misty white blossoms.
Pachysandra procumbens	Allegheny-Spurge	304	60.1303	March	Unusual ground cover from the Appalachians. Attractive, mottled leaves
Phystostegia virginiana	False Dragonhead	303, 306	84.0687	August-September	Old fashioned garden flower known as obedient plant. In the mint family
Pinus strobus	White Pine	303, 310	86.0483, 86.1346		Widespread eastern pine which is the state tree of several states
Rhododendron spp.	Rhododendron				multiple species; both evergreen rhododendrons and deciduous azaleas
Rosa spp.	Rose				Low growing, single wild roses. Several species
Rosa spp.	Rose				
Silphium spp.					Several species of prairie growing yellow daisies.
Symphotrichum spp.	Aster				Wild eastern composites known as New England asters.
Taxodium distichum	Bald Cypress	302	80.0259		Bald cypress, similar to dawn redwood. Deciduous conifer with small cones
<b>Australasia</b>					
Banksia spp.	Banksia				Many attractive shrubby species with large, brushy inflorescences. B. spinulosa blooms regularly in several beds.
Blechnum penna-marina	Alpine hard Fern	508, 510, 512, 513, 600, 607, 653, 654, NURS	91.1228, 92.0135, 94.0558, 94.0579, 2005.0457, 2010.0509		Lovely, delicate, mat-forming fern.
Callistemon pachyphyllus var. viridis	Wallum Bottlebrush	503, 509A, 509B, 513	75.0629	May-October	Odd, greenish bottlebrush blossoms. Other members of the genus, generally with red blossoms would also be good.
Corokia cotoneaster	Wire Netting Bush	505, 511A, NURS	93.0661, 96.0584, 97.0010	March	Wiry shrub with highly unusual branching pattern and small, yellow blossoms
Correa reflexa 'Cape Nelson'		503, 506, 509B	2017.0384		Attractive low-growing shrub with delightful, bi-colored blossoms
Dendrobium kingianum	Pink Rock Orchid	508, 510, 512, 513, 1001	62.0290, 2010.0381	February	Delicate pink orchid hardy in the Bay Area
Doryanthes spp.	Spear Lily	503, 507C	32.3895, 75.0404	March-October	Two species with massive stalks of red blossoms.
Eucalyptus kybeanensis		505	76.0621, 2009.0580		Lovely small eucalyptus with amazing, shredding bark
Fuchsia excorticata	Kotukutuku, Tree Fuchsia	511B	2000.0500		Unusual, fuchsia with cauliflorous blossom presentation. A small tree in habitat.
Fuchsia procumbens	Creeping Fuchsia	114, 506, 513	62.0738, 2013.0353		Odd creeping fuchsia from New Zealand. Yellow and green blossoms with blue pollen.
Grevillea spp.	Grevillea				Protea relative with striking blossoms. Several to choose from.
Hakea spp.					Another shrubby protea relative with interesting blossoms and unusual persistent seed pods.
Lepechinia hastata	Pakaha	503, 508, 509B, 511B, 513, 851	70.0218		Unusual salvia relative from Hawaii (!) Aromatic with spikes of purple blossoms.
Leptospermum spp.	Teatree				Several species of small trees with lovely blossoms. Important component of the New Zealand flora.
Pachystegia insignis	Rock Daisy	112, 506, 510	85.0587, 2010.0388	June-October	Beautiful woody composite from New Zealand
Pelargonium drummondii		505, 507A	75.0344	June-October	Unusual geranium from Australia
Plectranthus cremnus		124A, 505, 506, 507C, 511A, 500B	2003.0347	April	Low growing creeper with purple blossoms from the mint family
Rhododendron celebicum		508, 512	2002.0146, 2002.1086	July	Epiphytic rhododendron that blooms nearly year round. Pink, bell-like blossoms
Stenocarpus sinuatus	Firewheel Tree	513	97.0407		Firewheel Tree. Proteaceous tree with highly unusual red blossoms.
Tasmania lanceolata	Pepper Tree	508, 510, 513	60.0052		Unusual shrub from the temperate rainforests of Southeast Australia.
Veronica speciosa	Showy Hebe	504, 505, 506	95.0373	April-October	Widely grown ornamental shrub from New Zealand. Other members of the genus would be good too.
Xeronema callistemon	Poor Knights Lily	506, 512, 513	85.0812	May-June	Way cool and quite rare plant with red, bottlebrush-like flowers from islands off New Zealand.
<b>Mexico and Central America</b>					
Agave spp.					a number of species to work from, although many are large. Important component of pine-oak woodland
Bartlettia sordida	Purple Torch	346, 348, 351, 357	96.014	June	Woody daisy with trusses of powder-blue blossoms
Berberis gracilis		364, 365, 368, 369, 371, 372	90.0715, 90.0716, 90.0719	November-March	Glossy, deep green, holly-like leaves and fragrant yellow blossoms
Beschorneria spp.					Bold, agave relative with green and red blossoms. Several species to choose from.
Chiranthodendron pentadactylon	Monkey Hand Tree	351, 556, 357, 358, 360	76.2105, 81.1223	May-August	The iconic, monkeyhand tree
Cornus florida ssp. urbiniana	Flowering Dogwood	172, 368, 371, 372	91.0192	April	Iconic dogwood with balloon-like blossoms
Dahlia imperialis	Tree Dahlia	352, 358, 363, 368, 372, 374	76.0105, 76.2179, 90.2335, 2001.0626, 2001.0627,	October-November	tree dahlia with lovely purple blossoms
Dahlia sp.					tree-like dahlia with pendulous lavender blossoms

Deppea splendens		346, 350, 351, 352, 357, 359, 360, 361, NURS	92.0508, 98.0705, 98.0706, 98.0707, 2014.0595, 2014.0597, 2018.0614-2018.0620, 2019.0109	July-November	Highly endangered shrub with yellow, fuchsia-like blossoms. Several other members of the genus have nice flowers
Magnolia guatemalensis		350, 352, 357	72.0658	September	Evergreen magnolia from Central America
Magnolia sharpii		350, 352, 359, 362	81.0939	November-July	Striking, large, fragrant blossoms
Mathiasella bupleuriodes		172, 372, 377	2002.0109, 2002.0111	August	Unusual, woody, carrot relative with green blossoms and blue-gray foliage
Monochaetum tenellum		351, 352, 354, 355, 356, 357, 358, 359, 361, 362, 606	80.0007, 80.0015	January-December	Vivid magenta blossoms. Princess tree relative
Other woody daisies: Roldana, Montanoa, Telanthophora, etc					Iconic components of this flora often with striking blossom clusters
Passiflora membranacea	Passionflower	350, 357	96.0138		Unusual passion flower with distinctive leaves and attractive, purple bracts
Pinus spp.	Pine				The other important component of pine-oak woodlands. Several species to choose from - illustrate cones?
Podocarpus matudae		350, 351, 357, 359, 360, 361, 3678, 369	74.0220, 76.2169, 91.1425, 2017.0056	June	Unusual, tropical conifer
Quercus spp.	Oak				Very important as part of the pine-oak woodland flora. Perhaps acorns could be illustrated? Multiple species available
Salvia spp.	Sage				Many lovely species to choose from; the genus is an important component of this flora
Tecoma stans	Yellow Bells	112, 113, 120, 123, 155, 168, 172, 363, 380	89.1517, 96.0216, 99.1263, 2000.0197, 2014.0536	June-October	Bright yellow bell-like blossoms on this small tree
Ternstroemia spp.					several species - small trees with lovely blossoms and unusual fruit
<b>Deserts of the Americas</b>					
Agave spp.					Many species with beautiful leaves and blossoms
Cactaceae					Many species that come into blossom regularly
Deuterocohnia brevifolia		124B, 157, 161, 608, 650, 655, 658	53.1233, 68.0641	April-June	Mound forming desert bromeliad with small, single, yellow-green blossoms
Dudleya spp.					Rosette-forming succulents; some native to CA
Echinopsis terscheckii		156, 157, 158, 163, 164, 1005	50.1998, 56.0229, 71.0083, 2002.0248		Tallest and most iconic cactus in the collection
Ephedra spp.					Unusual gymnosperm with berry-like cones
Opuntia spp.					Lovely blossoms and fruit on several species of prickly pear
Oreocereus leucotrichus	Chastudo	156, 157, 160, 161, 162, 164, 165, 168, 1005, 1008	42.1030, 54.0208, 56.0207, 60.1122, 90.2066, 90.2133, 91.0815, 92.0569		One the "old man (or woman) cacti" with shaggy, white fibers. There are other similar cacti to choose from
