

## How to Submit Work to the Online Gallery:

Our online gallery is for current members of the Northern California Society of Botanical Artists.

If you would like to participate, please submit the following items by email to [gallery@ncalsba.org](mailto:gallery@ncalsba.org):

- your name as you would like to be listed
- your contact information (email address and/or telephone number)
- your web address (optional – include if you would like a link to your site to appear on your gallery page)
- a brief biography or artist statement of 250 words or less
- one or two images of your artwork
- title and medium of each work

The digital images should be of high quality and corrected to eliminate unwanted colorcasts and backgrounds. Images should be JPEG files (.jpg), no more than 300 DPI, and should not exceed a height or width of 600 pixels. They will be displayed on the site at a width of 400 pixels. Please note that we will also be selecting details from images in the gallery to be included in the rotating art displayed elsewhere throughout the site.

All images must be original work executed by hand. The subject plant must be the prominent feature of the work. Though the Online Member Gallery is not juried, please note that the web committee reserves the right to reject images that are not consistent with the organization's mission.
